MEMORANDUM FOR: Chairman  
National Intelligence Council  
  
VIA: Deputy Director for Administration  
[redacted]  
  
FROM: Director of Training and Education  
  
SUBJECT: Presentation to the Senior Officer Development  
Course

1. This memorandum confirms our invitation for you to speak to the Senior Officer Development Course at 1330 hours on Friday, 2 April 1982.

2. This 13-week Course is designed to prepare selected GS-15s from the various directorates for future roles as intelligence executives. Your session will conclude the first three-week portion of the Course, during which we will have covered: (a) the international setting in which nations conduct relations, react to perceived threats to their security, and engage in intelligence activities; (b) the national security and foreign policy decision process; and (c) the contribution of intelligence to that process. We hope your presentation will include consideration of the role of the NIC in the latter context, highlighting your personal observations on how the Agency and the Community can most effectively contribute to the support of the policymaker.

3. The session will be in room 1001 of the Chamber of Commerce Building in Arlington (4600 North Fairfax Drive). If you have any questions, please contact George Allen, the Block I Chairman, or [redacted] our training assistant, on extension [redacted]
